EDUCATION

Web Development Bootcamp, Le Wagon 07/2024 - 09/2024
- Proficient in Ruby, object-oriented programming, MVC design, and full-stack development with HTML, CSS, JavaScript, SQL, and Figma.
- Experienced in deploying full-stack apps using Ruby on Rails and JavaScript, collaborating on GitHub.
- Led team projects from concept to launch, building and deploying original applications.

Master in International Business and Development, Università degli Studi di Parma 09/2017 – 03/2021
- English-taught degree in economics and business (LM77), with a focus on international economics and global development.

Bachelor's Degree in Political Science and International Relations, Università di Genova 09/2014 - 04/2017
- Interdisciplinary program covering economics, law, political science, sociology, and history with a focus on international and European issues.

EXPERIENCE

Working Student (03/2020 – 03/2021) FinTecsystems GmbH (today: Tink), München
- Developed and maintained the Italian categorization, including data lexicons and rules, and supported data analysis for the "Customer Performance Bank Report."
- Assisted application developers with blacklisting, whitelisting, and anonymizing transaction data.
- Contributed to the Italian market entry strategy, providing support and insights.

Key Account Manager (08/2021 – 08/2022) Tonitrus GmbH, Berlin
- Acquired new customers and expanded existing relationships with corporate and public sector clients, including managing Italian clients and developing key accounts.
- Prepared offers, processed orders, and recorded sales activities in the CRM tool Salesforce.

Guest Service Agent Ground Floor (11/2022 – 06/2024) Premier Inn "Weißer Hase", Passau
- Led the team in adopting and implementing the Opera system, ensuring smooth integration and training staff for efficiency.
